

For wall mount of antennas with N-connector.

Versatile use: the 16 mm hole takes any N connector, cable sets or pigtails with N panel jacks, the antenna is then mounted on top of this N jack.

Material aluminum, includes screws etc.

Art.: 2309BESD-Acc-18615-N

Example
(cable is not included)

N pass through

Art.: 2309BESD-Acc-42055

Black scratch-proof base, approx. 75 mm diameter, with 2m Low-Loss coaxial cable, with N female and RP-SMA connector. The base has an integrated magnet which eases the installation for example on an equipment rack, but which is not suitable for mobile use on a car.

Art.: 2309BESD-Acc-20125
