USB-232-NI

The USB-232-NI is a non-isolated USB to RS232 converter.

Drivers are included (on a 80mm CD) to create a virtual COM port in the operating system.
This product is ideal for laptops which do not have a serial port, or where an extra serial port
is required.

Converts a USB port into an RS232 port
Powered entirely from USB port
Up to 250kbps RS232 data rate
Drivers for Windows 98, ME, Win2000, WinXP, Vista, Win7
Apple Mac O/S supported (check before purchase)
Female screwlocks on RS232 - like a standard PC RS232 port
All standard PC RS232 handshake lines supported for maximum compatibility
Compatible with KK Systems RS232 to RS422 or RS485 converters
Very low cost
