DL-CAN

- DL-CAN in combinatie met Woodward controllers

DL-CAN

DL-CAN in combinatie met Woodward controllers

Onderwerp: Status LED flashes when many Woodward controllers are connected.

In configurations with many Woodward controllers it can happen that the DL-CAN CAN bus to fiber optic converter cannot handle all the data.

Therefore some settings must be changed in the Woodward controllers.

- Set 8940 – producer synch message time to 1000 ms
- Set 9921 – transfer rate fast message time to 0.3s <- en son ihtimal
- Set 9604,9614,9624 – event timer to 65500 ms
- change settings for „Fast Rate“ and disable the “Transmit PDO 1- COB ID” in all of the LS-5’s
